Aims:

Dr Karim's Clinic strives to provide the best in traditional general practice consultations offering a flexible, personal, and a holistic approach.

Dr Karim makes the care of patients as his first concern and protects and promotes the health of his patients. He provides an excellent standard of practice and care.

Location:

The clinic is located in the heart of the private world of medical practice on the prestigious Harley Street, where the finest specialists with the best medical advice in the world are found.

Tests and Specialist Referrals:

General Practitioners are the gateway to tertiary care, and it is essential that a careful and thorough consultation is carried out in order to obtain the best possible medical care. As the practice is located on Harley Street, there are first class facilities located within 10 Harley Street and the surrounding buildings, thus procedures and tests are normally arranged within our doorsteps, negating the need to travel distances or deal with multiple different people.

Where additional expert knowledge is required, access to the leading medical specialists is instantly available, and admissions to the best private hospitals can be achieved without any inconvenience.

Medical Repatriation/Escorting:

Have you suffered from a medical problem whilst you have been away from home?
Are you safe enough to travel back alone?

Do you need a doctor to travel with you to your destination?

Do you need peace of mind?

Many people become unwell worldwide and require the services of a medical escort, who has special training to escort patients from one country to another. Dr Karim works for the leading insurance companies as a Flight Doctor and can also provide his services in the private sector. Please enquire....

About Dr Karim

*Dr Ruhin Karim
M.D. MRCP*

*Specialist Family
Physician*

Dr Karim is a fully qualified, registered, and UK trained **General Practitioner (Specialist Family Physician)**.

He is a **Member of the Royal College of General Practitioners**.

Dr Karim holds medical licences in **Dubai** and **Canada**, in addition to his UK licensure.

Dr Karim is fluent in English, Bengali, Urdu, and Hindi.

Dr Karim started a career in Surgery and has a Specialist Interest in **Urology**. After his initial Surgical training he then completed further specialist training as a General Practitioner (Specialist Family Physician).

During these years he gained training in Upper & Lower Gastrointestinal Surgery, Ear Nose & Throat Surgery, Trauma & Orthopaedics, Plastic Surgery, Accident & Emergency, Urology, and Uro-Gynaecology.

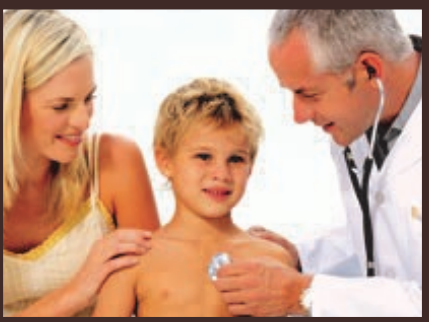

During his specialist GP training, Dr Karim completed training in Psychiatry, Paediatric Emergency, Medical Emergency, and General Practice.

During further postgraduate training, he has achieved additional experience in Forensic Medicine, and Aeromedical Medicine.

Dr Karim continues his clinical duties both in Private Practice and the NHS. He also is a Consultant Forensic Medical Examiner to Metropolitan Police.

Dr Karim also enjoys **Medical Repatriation** where he works as a **Flight Doctor** escorting ill patients from one country to another when expert medical assistance is required.

Dr Karim maintains his surgical skills by performing minor operations and circumcisions and also trains other doctors in the art of circumcision using specific methods.
